# *MedEsthetics* – The Guide for Excellence in Medical Aesthetics

Since 2005, *MedEsthetics* has served as the go-to resource for medical aesthetics providers. Our mission is to help practitioners who specialize in medical cosmetic procedures, including noninvasive, minimally invasive and invasive, to build and sustain profitable practices that deliver exceptional patient outcomes.

This past year highlighted the incredible resiliency and continuing innovation of the medical aesthetics industry. The demand for elective cosmetic procedures is not slowing down, and neither are we. In 2025, we will continue in our mission by bringing our readers the latest industry news, education, suppliers and expert advice they need to advance their careers, patient outcomes and business success.

Jamie O'Jole

## What is *MedEsthetics*?

*MedEsthetics* is a multimedia resource for practitioners offering noninvasive and minimally invasive medical aesthetics procedures. Our goal is to help medical professionals who offer cosmetic procedures deliver consistent outcomes and better manage and grow their practices and medspas. We cover practice management and growth, the latest techniques, new products and devices, industry news and important regulatory issues.

## Why It's Important

The medical aesthetics market size was valued at \$15.4 Billion in 2023 and is projected to reach \$25.9 Billion by 2028, growing at a CAGR of 11.0% from 2023 to 2028, attracting new providers and presenting increased competition for existing practitioners.

In addition to delivering optimal outcomes to a wide range of patients, practice and medspa owners must understand how to attract and serve patients seeking elective medical procedures—a skill set that differs from clinical medical care.

For more than 15 years we have been helping professionals in the medical aesthetics industry understand the unique needs and goals of their target patient base. *MedEsthetics* keeps practitioners abreast of new regulations, best practices and the latest treatment tools and techniques, so they can achieve high patient satisfaction within a profitable business model.
